

INVITATION

THE 17TH INTERNATIONAL CONFERENCE ON
SUSTAINABLE ENERGY TECHNOLOGIES
&
2018 WUHAN FORUM OF WORLD-RENOWNED
SCIENTISTS LECTURING IN HUBEI

Wuhan, China
August 21st to August 23rd, 2018
Sustainable Energy Technologies for Eco Cities and Environment

Sponsors: Hubei Provincial Department of Education
World Society of Sustainable Energy Technologies (UK)
Host: Hubei University of Technology

INVITATION

Respected _____,

The 17th International Conference on Sustainable Energy Technologies & 2018 Wuhan Forum of World-Renowned Scientists Lecturing in Hubei will be held from August 21st to August 23rd, 2018, in Wuhan, China. The theme of the Conference is Sustainable Energy Technologies for Eco Cities and Environment.

As a significant international academic conference in the domain of world sustainable energy technologies, it aims at providing a forum for the exchange of latest technical information, the dissemination of up-to-date research results, and the presentation of major issues that may shape future directions of human society, such as sustainable energy technology research, its application and energy security.

World-renowned experts and scholars in the area, representatives of prominent enterprises and universities, and leaders of relevant Chinese governmental departments will attend the Conference and make speeches on the theme. They will also discuss the new developments and achievements in the field, as well as promoting academic exchange, application of scientific results, university-industry collaboration and government-industry collaboration.

The World Society of Sustainable Energy Technologies (WSSET), is a non-profit organization led by Saffa Riffat, Professor in Sustainable Energy and Head of the Institute of Sustainable Energy Technology at the University of Nottingham, UK. With thousands of members, WSSET has played an important role in consolidating practical partnerships between academic and industrial organizations, as well as promoting sustainable development and technologies worldwide.

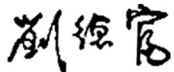

The Conference will primarily focus on the discussion of topics such as Energy Storage for the Age of Renewables; Research, Innovation and Commercialization in Sustainable Energy Technologies; Integrating Planning & Policy, Architecture, Engineering & Economics; Energy and Environment; Engineering Thermophysics; and Systemic Change for Cities.

Selected papers will be published in several international journals including: International Journal of Low-Carbon Technologies, Future Cities and Environment, Renewable Bioresources, Applied Thermal Engineering (SCI) and International Journal of Energy Research .

We sincerely look forward to your participation!

Prof. Saffa B. Riffat
Chair of the Conference and Chairman of World Society of Sustainable Energy Technologies

Prof. Liu Defu
Chair of the Conference and President of Hubei University of Technology

Registration

If you are interested in attending the Conference, please register at <http://set2018.org> by April 30, 2018.
